盛达拖链系统简介 Introduction to Shengda Drag Chain System

盛达拖链系统（广东）有限公司创立于2005年，座落于以“世界制造名城”闻名的中国广东滨海湾新区。拥有近万平方米的生产厂房及独立的研发中心和模具中心。现有专业研发工程人员10余位，员工近100人；拥有国家级专利证书30余项，是一家集研发、制造、销售和服务为一体的国家高新技术企业；20年来专业从事生产线缆拖链系统、电缆保护软管及接头连接器等拖链系统，广泛应用于工业自动化、CNC数控机床、塑料机械、化工机械、工程机械及港口设备、烟草设备、医药设备等领域。盛达拖链是目前中国拖链系统行业中的领军企业。盛达拖链凭借其高品质、高技术及出色外观和贴心服务，产品远销欧美、日韩、东南亚等30多个国家和地区。随着公司的不断发展，盛达拖链坚持为客户提供完整的拖链系统一体化解决方案”而不懈努力，热诚欢迎海内外客商光临指导，共创辉煌！

Shengda Drag Chain System (Guangdong) Co., Ltd. was founded in 2005 and is located in the famous "World Manufacturing City" in the Binhai Bay New Area of Guangdong, China. It has nearly 10000 square meters of production plants and independent research and development centers and mold centers. There are more than 10 professional R&D engineering personnel and nearly 100 employees. It has more than 30 national level patent certificates and is a national high-tech enterprise integrating R&D, manufacturing, sales and service. For 20 years, it has been focusing on the production of cable drag chain systems, cable protection hoses and connector drag chain systems, which are widely used in industrial automation, CNC machine tools, plastic machinery, chemical machinery, engineering machinery and port equipment, tobacco equipment, pharmaceutical equipment and other fields. Shengda drag chain is currently a leading enterprise in the Chinese drag chain system industry.

Shengda drag chains, with their high quality, high technology, excellent appearance, and attentive service, are exported to more than 30 countries and regions including Europe, America, Japan, South Korea, and Southeast Asia. With the continuous development of the company, Shengda drag chain insists on providing customers with a complete integrated solution for drag chain systems and makes unremitting efforts. We warmly welcome customers from home and abroad to visit and guide us, and create brilliance together!

自建10000平方江门智造基地，团队持续扩大及全面转型升级产品全方位布局及开拓新领域。

Build a 10000 square meter Jiangmen intelligent manufacturing base, continuously expand the team and comprehensively transform and upgrade the product layout and explore new fields.

engineers and nearly 100 employees; We have
over 30 national level patent certificates and are
a national high-tech enterprise that integrates
research and development, manufacturing,
sales, and service

盛达拥有近万平方米的生产厂房及独立的研发
中心和模具中心，3000多种常规产品规格型号
共客户选择，专业技术人员提供完整的拖链系
统解决方案，如需非标拖链可联系支持定做。

Shengda has a production plant of nearly 10000 square
meters, as well as independent research and
development centers and mold centers. More than 3000
conventional product specifications and models are
available for customers to choose from. Professional
technicians provide complete drag chain system
solutions. If non-standard drag chains are needed,
please contact support for customization

盛达先后通过了ISO9001质量管理体系
认证、多项资质证书，严格控制生
产流程、生产工艺以及制程的检验,保
证产品的质量。

Shengda has successively passed the ISO9001
quality management system Series certification,
multiple qualification certificates, strict
control of studentsInspection and maintenance
of production processes, manufacturing
techniques, and manufacturing processesProve
the quality of the product.

盛达以品质高性能稳定著名，采用6s管理，
品质控制从源头抓起，确保从原材料到成品
的全过程都可以追溯。

Shengda is famous for its high-quality, high-
performance, and stable products. It adopts 6s
management and quality control from the source to
ensure that the entire process from raw materials
to finished products can be traced.

智造最完美的拖链保护系统

Intelligent manufacturing of the most perfect drag chain protection system

01

我们注重团队合作与客户合作伙伴关系。我们长期合作的中国制造客户有3000多家。

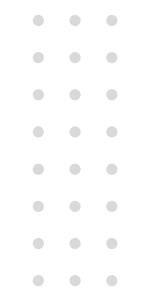

We value teamwork and customer partnership. Our long-term cooperation There are over 3000 domestic manufacturing customers

02

我们的企业责任是 "感恩创新，成长共赢"。因此，我们鼓励团队成员不断学习和创新，为客户创造更大的价值。

Our corporate responsibility is to be grateful for innovation, grow and win together. Therefore, we encourage team members to continuously learn and innovate, creating greater value for our clients.

企业愿景 Corporate Vision

成为拖链系统，品牌标杆企业

Becoming a drag chain system and a brand benchmark enterprise

01

持续提升公司管理的规范化、科学化水平，将公司打造成为拖链系统，品牌标杆企业。

Continuously improve the standardization and scientific level of company management, and build the company into a drag chain system and brand benchmark enterprise

02

盛达已在行业内形成良好的口碑及不错的品牌影响力，得到了行业客户和经销商的认可，并降低了客户的成本压力，是一个口碑相传的优秀首选品牌。

Shengda has established a good reputation in the industry And with a good brand influence, it has gained popularity Recognition from business customers and distributors, and reduction The cost pressure on customers is a good reputationThe excellent preferred brand that has been passed down.

满足高产量需求

Meet high production demand

质量管控严格

Strict quality control

拖链系列 Drag Chain Series

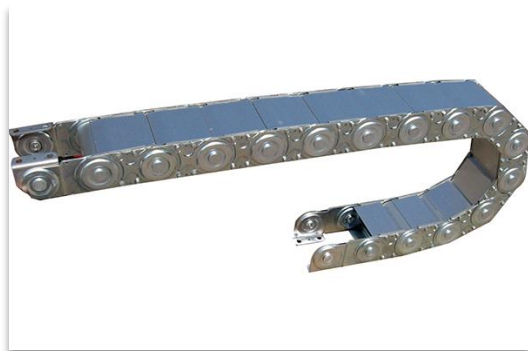

微小型拖链

重载型拖链

双排拖链

钢制拖链

加强型拖链

S型拖链

拖链系列 Gratitude and Blessing Culture

重载型拖链类型有桥式/封闭可选择，具有较高的压力和抗拉负荷，良好的韧性、高弹性等，高低温可用，可以使用在室外。

The heavy-duty drag chain can be selected from bridge/closed types, with high pressure and tensile load, good toughness, high elasticity, etc. It can be used at high and low temperatures and can be used outdoors.

应用领域：重载型拖链适用于木工机械、搬运机械、数控机床、电子设备、石材机械、玻璃机械、门窗机械、注塑机、机械手、起重运输设备、自动化仓库等。

用途：能够对内置的电缆油管、气管，水管等起到牵引和保护作用，使机床整体看起来更美观，更富有艺术感。

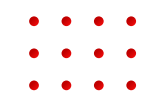

Application areas: Heavy duty drag chains are suitable for woodworking machinery, handling machinery, CNC machine tools, electronic equipment, stone machinery, glass machinery, door and window machinery, injection molding machines, robotic arms, lifting and transportation equipment, automated warehouses, etc.

Purpose: It can provide traction and protection for built-in cable oil pipes, air pipes, water pipes, etc., making the overall appearance of the machine tool more beautiful and artistic.

重载型拖链 Heavy duty drag chain

双排拖链类型有桥式/封闭可选择，双排拖链指并列两条链带，增强电缆/油管承载与分隔能力。适用于高柔性、多管线、长行程的数控机床与自动化设备，有效防止线缆缠绕磨损。

Double row drag chains can be selected from bridge or enclosed types. Double row drag chains refer to two parallel chain belts to enhance the load-bearing and separation capacity of cables/oil pipes. Suitable for high flexibility, multi tube, and long stroke CNC machine tools and automation equipment, effectively preventing cable winding and wear.

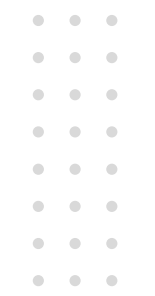

双排拖链 Double row drag chain

应用领域：应用于数控机床、电子设备、石材机械、玻璃机械、门窗机械、注塑机、机械手、起重运输设备、自动化仓库等。

用途：能够对内置的电缆油管、气管，水管等起到牵引和保护作用，使机床整体看起来更美观，更富有艺术感。

Applied to CNC machine tools, electronic equipment, stone machinery, glass machinery, door and window machinery, injection molding machines, robotic arms, lifting and transportation equipment, automated warehouses, etc.

Purpose: It can provide traction and protection for built-in cable oil pipes, air pipes, water pipes, etc., making the overall appearance of the machine tool more beautiful and artistic.

拖链系列 Gratitude and Blessing Culture

微型拖链类型有桥式/封闭/半封闭可选择，具有节距小、噪音低、外形设计美观、大方、耐摩擦、耐腐蚀等特点。

The heavy-duty drag chain can be selected from bridge/closed types, with high pressure and tensile load, good toughness, high elasticity, etc. It can be used at high and low temperatures and can be used outdoors.

应用领域: 微型拖链适用于普通建筑机械、自动化机械、切割机、测量设备、搬运系统、拾取机器人等。

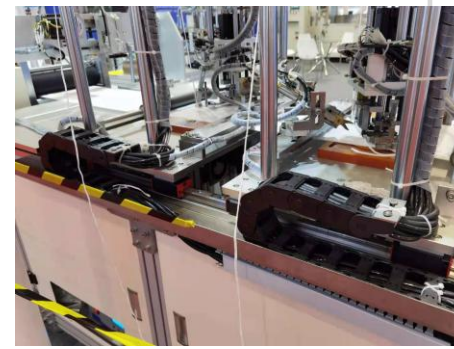

用途: 适用于狭小的空间，可有效保护电缆的内表面，使线缆使用寿命更长久。

Micro drag chains are suitable for ordinary construction machinery, automation machinery, cutting machines, measuring equipment, handling systems, picking robots, etc.

Purpose: Suitable for small spaces, it can effectively protect the inner surface of cables and prolong their service life.

微型拖链 Micro drag chain

拖链系列 Gratitude and Blessing Culture

钢制拖链 Steel drag chain

钢制拖链的主体是由链板(钢板镀铬)支撑板(挤拉铝合金)轴销(合金钢)等部件组成,链板经镀铬处理灵巧强度高,钢性好不变形,采用高强度耐磨材料,合金铜为轴销,提高了产品的耐磨强度,弯曲更灵活,阻力更小,从而可保证长时间使用不变形,不下垂。

The main body of a steel drag chain is composed of components such as a chain plate (chrome plated steel plate), a support plate (extruded aluminum alloy), a shaft pin (alloy steel), etc. The chain plate is treated with chrome plating for high flexibility and strength, and its rigidity does not deform. High strength wear-resistant materials are used, with alloy copper as the shaft pin, which improves the wear resistance of the product, makes it more flexible to bend, and has less resistance, thus ensuring long-term use without deformation or sagging.

应用领域: 广泛使用在机床、车床、起重机械、木工机械、港口码头等。

用途: 能够对内置的电缆油管、气管,水管等起到牵引和保护作用,使机床整体看起来更美观,更富有艺术感。

Application areas: Widely used in machine tools, lathes, lifting machinery, woodworking machinery, ports and docks, etc.

Purpose: It can provide traction and protection for built-in cable oil pipes, air pipes, water pipes, etc., making the overall appearance of the machine tool more beautiful and artistic.

产品主要材料 Main materials of the product

塑料拖链材料 Plastic drag chain material

尼龙6, 又叫PA6、聚酰胺6、锦纶6, 是一种高分子化合物。尼龙6的化学物理特性和尼龙66很相似, 然而, 它的熔点较低, 而且工艺温度范围很宽。它的抗冲击性和抗溶解性比尼龙66塑料要好, 但吸湿性也更强。因为塑件的许多品质特性都要受到吸湿性的影响, 因此使用尼龙6设计产品时要充分考虑到这一点。为了提高尼龙6的机械特性, 经常加入各种各样的改性剂。

Nylon 6, also known as PA6, polyamide 6, or nylon 6, is a high molecular weight compound.

The chemical and physical properties of nylon 6 are very similar to nylon 66, however, its melting point is lower and the process temperature range is wide. Its impact resistance and solubility are better than nylon 66 plastic, but it also has stronger moisture absorption. Because many quality characteristics of plastic parts are affected by moisture absorption, this should be fully considered when designing products using nylon 6. In order to improve the mechanical properties of nylon 6, various modifiers are often added.
